

## Avyakt BapDada 21st May 1970

When you say “Baba, Baba”, Maya runs away. When you say “I, I”, Maya kills you. You have to change your language in every respect. Always keep the shield of “Baba, Baba’ with you. Any obstacle that comes will be finished by that shield.

The easier and simpler someone is, the more easily he can stay in remembrance. Who can remain simple and easy? The clearer someone is in every aspect, that is the more honest he is, the more simple and easy he will be. The easier and simpler he is, the more he will be able to stay in remembrance, and the more he will be able to make others into easy effort-makers. His creation will have the same sanskars as him.

You have to make all tasks elevated. With easiness, simplicity, and tolerance in your thoughts, words and actions, every task becomes elevated. Easiness and tolerance have to go together hand in hand. Easiness without tolerance is called innocence. Easiness with tolerance is power. Shaktis have to have both the virtues of easiness and tolerance. There has to be balance between the two. You have to have sweetness and be the embodiment of power. The images of the deities have as much coolness as they are the embodiment of fire. Their task is that of a fire, and their face is cool. This is the final stage.

What is the give and take between Brahmins. To give love and to receive love. By giving and receiving love you also receive the Father’s love, and this is how those who have love come close. The more you remain bodiless,

the more loving you will be.

You must not have any thoughts of weakness, even in your dreams. These weaknesses are from many births and you have to finish all weaknesses in this birth. Never say “I cannot do this”. You can do anything. Nothing is impossible. You should experience difficult things to be easy. You have to become master almighty authorities, the ones with all powers. Not even one power should be lacking.

Whenever you are alone, always think that you have company, that Shiv Baba is with you, and you will not be lonely. You must definitely practice having company, even whilst living alone. And whilst living with others, let there be the practice of being alone. You should be able to live with others and also live alone. To be alone means to be detached, and to be in a gathering means to be loving. You have to be detached as well as loving. Externally you have to be on your own, and internally you have to have that Company. When you have external company, you forget to be alone.

Those who stay in the consciousness of being a soul in the centre of the forehead for a long period are very few. Very few remain in the forehead, and many remain in the heart. Everyone’s vision goes first to the forehead, and so you have to become jewels of the forehead.

Never say ‘sometime’, but say ‘now’. Never say ‘I will see’ but say ‘I will do it now’.

You will become complete with all the virtues in the future anyway, but now you have to become complete with all the powers. The more you become complete with all the powers, the more you will be complete with all virtues. You need a balance in the powers of love, relationships, co-operation, and tolerance. Those who are courageous receive help. You cannot receive help by asking for it. You have to maintain courage. Constantly remain courageous and you will automatically receive help from BapDada and the divine family.

You must be the embodiment of love and also the embodiment of power. There is a need for both love and power. You become victorious through power, and you come into relationship with others through love. All of you are lucky stars anyway, but now you have to consider yourselves the stars of success. Those who do not have any desire of instant fruit attain success. Achcha.
